

To Whom It May Concern,

It's my absolute pleasure to submit this letter of recommendation for Tristan Huckabee.

I am delighted to write this letter of recommendation for Tristan, who served as a Software Engineering Bootcamp Instructor during their tenure at App Academy. His depth of knowledge, combined with a passion for coding and teaching, has significantly enhanced the learning experience for our students. I wholeheartedly recommend Tristan for any position related to software engineering.

Throughout his time with us, Tristan consistently showcased a remarkable ability to convey complex concepts in a clear and accessible manner. His teaching style fostered an engaging and collaborative environment, where students felt comfortable exploring and mastering languages such as React, Redux, PostgreSQL, Express, JavaScript, HTTP, HTML, AJAX, CSS, Python, Flask, and Docker. Feedback from students highlighted Tristan's dedication to their success and their knack for making challenging topics comprehensible.

One of Tristan's notable strengths is his ability to connect with students on a personal level. His approachability, patience, and willingness to provide additional support outside of regular class hours were consistently appreciated by our students. Tristan created a positive and inclusive learning atmosphere that encouraged collaboration and inquiry.

Along with his many qualifications, Tristan has always been an absolute joy to work with, a sentiment echoed across our team. He is a true team player, and always manages to foster positive discussions and bring the best out of other employees. As a dedicated and knowledgeable employee and an all-around great person, I know that he will be a critical addition to any organization he joins.

Please do not hesitate to contact me if you require any additional information. I am more than willing to elaborate further on Tristan's qualifications and achievements.

Kind regards,

*Maggie Shaughnessy*

Maggie Shaughnessy  
Director of Instruction, App Academy
